

● 50 MILLION FARMERS TO BENEFIT

CCEA approves 5% hike in sugarcane FRP for 2022-23

Support price 88% more than cost of production

DEEPA JAINANI & SANDIP DAS
Lucknow/New Delhi, August 3

THE GOVERNMENT ON Wednesday approved a 5% hike in fair and remunerative price (FRP) of sugarcane to be paid to farmers for the next season (Oct-Sept) to ₹305/a quintal.

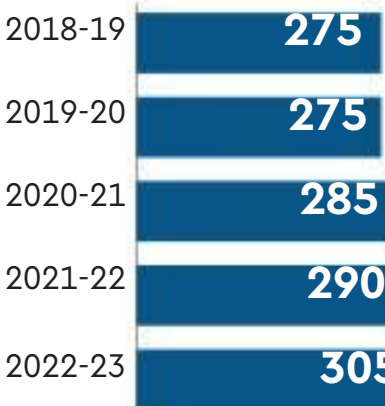

The Cabinet Committee on Economic Affairs (CCEA) approved the increase subject to base sugar recovery of 10.25%.

FRP fixed for the next season is 88.3% more than the cost of production, thus ensuring the government's promise of paying 50% more than cost of production to farmers for which support prices are announced, a food ministry statement stated.

More than 360 million tonne (MT) of sugarcane is likely to be purchased by sugar

Sugarcane FRP*

(₹/quintal)

*Fair & remunerative price, season (Oct-Sept)

mills in the next season, for which the total remittance to 50 million farmers will be more than ₹1.2 trillion, the ministry stated.

More than 360 MT of sugarcane is likely to be purchased by sugar mills in the next season

The decision to increase FRP of sugarcane for the 2022-23 season is in line with the Commission for Agricultural Costs and Prices (CACP) recommendation. The FRP for the just concluded

2021-22 season was at ₹290/quintal at 10% recovery rate.

The FRP is linked to the basic recovery rate of sugar, which in

effect is the ratio between sugar produced versus cane crushed, expressed as a percentage. The higher the recovery, the higher the FRP, and higher the sugar production.

The central government announces the FRP annually before the start of the sugarcane crushing season. It is the threshold price that mills are legally bound to pay to cane growers for the cane procured from them. However, many state governments, including

Uttar Pradesh and Tamil Nadu, have their own cane pricing policy and they announce their sugarcane rates, which are known as state advised price or SAP,

which is over and above the FRP.

The FRP is governed by the Sugarcane Control order, 1966 which mandates payment within 14 days of the date of delivery of the cane. Any delay in payment attracts an interest up to 15% per annum. The Act empowers the sugar commissioners to recover the unpaid FRP as dues in revenue recovery by attaching properties of the mills.

Sugarcane farmers of many states have been demanding a higher FRP for sugarcane in view of escalation in the cultivation cost. They have cited a steep hike in the cost of manures, fertilizers, pesticides besides in labour charges as reasons why FRP should be increased and brought at par with SAP-governed states such as Uttar Pradesh, the country's largest sugarcane producing state, which had a SAP pf ₹340/quintal for the normal variety for the 2021-22 season.

The country's sugar production is estimated at 36 MT in the 2021-22 season. Sugar Mills Association (Isma) in its first projection has estimated sugar production at 35.5 MT in 2022-23.

Sugar mill owners urge govt to hike MSP

FE BUREAU
Lucknow/New Delhi, August 3

INDIAN SUGAR MILLS Association (ISMA) on Wednesday urged the government to increase the minimum support price (MSP) of sugar from the current level of ₹31 per kg to at least ₹36-37 per kg in line with fair and remunerative price (FRP) of cane. MSP of sugar was last announced in February 2019.

In a communication to the food ministry, ISMA President Aditya Jhunjhunwala has said 'the government had fixed MSP of sugar at ₹31 per kg in February 2019 when the FRP of sugarcane was ₹275 per quintal. Since then, FRP of sugarcane has increased twice.'

Since 85% of the sugar mills' revenue comes from the sales of sugar, it is an important component to pay the cane price to farmers, it stated.

"The cost incurred on account of interest on term loans and depreciation of plant and machinery and other raw material cost have increased substantially," ISMA stated.

The government had introduced the concept of MSP of sugar in June 2018.

Portal will ensure ration cards for migrant workers

SANDIP DAS
New Delhi, August 3

TO PROVIDE SUBSIDISED foodgrains under the public distribution system to migrant workers in cities who do not have ration cards, the government will launch a national portal for registration of these workers.

According to Sudhanshu Pandey, secretary, ministry of food and public distribution, a large section of migrant population living in cities does not have ration cards as they do not have proof of residence, which deprives them of getting subsidised foodgrains under the National Food Security Act (NFSA).

Through online registration and biometric authentication, the Centre will inform the states concerned on issuing ration cards to migrants working as maids, security guards and construction workers in cities.

The NFSA provides for maximum coverage for about 813 million people as per Census 2011. However, currently around 797 million people are covered under it.

Pandey said that there is a possibility of adding another 16 million beneficiaries under the NFSA by providing ration cards to the migrant popula-

■ Currently, the National Food Security Act covers around 797 million people

■ As per estimates, 60 million people migrate seasonally to various states in search of livelihoods

tion in the city.

"We have discussed the issue with states and they have agreed to provide ration cards to these workers for issuance of ration cards," Pandey told FE. Once ration cards are issued in their respective states, migrant workers can avail benefits under the NFSA under the one nation one ration card (ONORC) initiative launched in 2019. Under the ONORC, the portability of ration cards has been ensured through which ration-card-holders lift

their quota of grain entitlement from any fair price shop in the country by using the ration card issued in their home states or Union Territory after biometric authentication. Since the launch of ONORC, 778 million portable transactions — 60% under the NFSA and the rest 49% under Pradhan Mantri Garib Kalyan Anna Yojana have taken place under ONORC. According to a food ministry statement on Tuesday, subsidised foodgrains worth ₹43,000 crore have been delivered to beneficiaries through ration card portability so far.

As per estimates, 60 million people migrate seasonally to various states in search of livelihoods. Besides, around 80 million people are intra-state migrants, moving from one district to another in their home state. To ensure ration-card portability, the Centre had requested states to issue ration cards in the bi-lingual format — local language and Hindi or English. A 10-digit standard ration card number was assigned to beneficiaries, wherein the first two digits denoted the state code. Along with 10 digits, a set of another two digits was appended with the ration card number to create unique member IDs for each beneficiary in a ration card.

CII wants govt to cut personal income tax

PRESS TRUST OF INDIA
New Delhi, August 3

THE CONFEDERATION OF Indian Industry president Sanjiv Bajaj on Wednesday asked the Central government to contemplate reducing the personal income tax rates to spur economic activities.

The business tycoon also said the country's underlying growth drivers are strong and the economy would grow in the range of 7.4% to 8.2% in the next fiscal.

"Putting more money in the pockets of the consumers is of vital importance to revive consumption demand in the economy. The government should contemplate a reduction in the rates of personal income tax in its next push for reform as this would increase disposable incomes and revive the demand cycle," Bajaj, who is chief managing director of Bajaj Finserv, said at a press conference.

He was speaking to reporters as part of the CII's theme 2022-23 "Beyond India @75: Growth competitiveness, sustainability and internationalisation".

The CII is also organising 'Sankalp Se Siddhi' in the city, in which Union home minister Amit Shah will take part on Thursday.

"The Central and state capex are rising and tax buoyancy would support growth in FY23. Hence, on balance, CII has retained India's GDP forecast in a range of 7.4 to 8.2% in FY23," Bajaj said. He also said the CII believes that there is a lot that industry and CII could do themselves in taking India to a \$40 trillion goal post by 2047.

India home to 75,000 startups: Goyal

FE BUREAU
New Delhi, August 3

AS MANY AS 75,000 startups have been recognised by the government and about 49% of them are from the tier-II and tier-III cities, commerce and industry minister Piyush Goyal said on Wednesday.

"These numbers tell the power of a vision. A vision to see innovation & enterprise drive growth. India is now home to 75,000 startups in the 75th year of Independence and this is only the beginning," Goyal said in a tweet on Wednesday.

According to the data compiled by the Department for Promotion of Industry and Internal Trade (DPIIT), about 12% of the startups belong to the IT services, 9% to healthcare and life sciences, 7% to

Commerce and industry minister Piyush Goyal

■ About 49% of startups recognised by the govt are from tier-II and tier-III cities

■ Nearly 7,46,000 jobs have been created by the start-up ecosystem

■ A total of 12% of the startups belong to the IT services and 9% to healthcare

education, 5% to professional and commercial services and 5% to agriculture.

About 7,46,000 jobs have been created by the startup ecosystem, having recorded a 110% annual increase over the last six years.

While the initial ten thousand start-ups were recognised in 808 days, the latest ten thousand were achieved in only 156 days. With more than 80 startups getting recognised per day, the highest rate in the world, the future of the startup

culture is "very promising and encouraging", according to an official statement.

The Startup India programme, launched in January 2016, was rolled out to provide an enabling environment for budding entrepreneurs to flourish. Through the programme, the government provides tax incentives to eligible start-ups and support them intellectual property rights and public procurement.

Several rules have been eased, especially in labour and environment, to help them start operations. However, while several start-ups have created much-needed employment, some of them have recently shed jobs, too. Vedantu, Unacademy and Cars24 have reportedly laid off over 6,000 employees this year.

DRI detects ₹2,217 cr customs duty evasion by Vivo India

PRESS TRUST OF INDIA
New Delhi, August 3

THE DIRECTORATE OF Revenue Intelligence (DRI) has detected customs duty evasion of around ₹2,217 crore by smartphone maker Vivo India, a subsidiary of China-based Vivo Communication Technology, a finance ministry statement issued Wednesday said.

During the investigation, searches were conducted by DRI officers at the factory premises of Vivo India, which led to the recovery of incriminating evidence indicating wilful misdeclaration in the description of certain items imported by it for use in the manufacture of mobile phones, it said.

This misdeclaration

resulted in wrongful availment of ineligible duty exemption benefits by Vivo India, amounting to ₹2,217 crore, the statement said.

After completion of the investigation, a show cause notice has been issued to Vivo India demanding customs duty amounting to ₹2,217 crore, under the provisions of the Customs Act, 1962, it added.

₹60 crore has been voluntarily deposited by Vivo India, towards discharge of their differential duty liability, the statement said. Vivo Mobile India or Vivo India is a subsidiary company of Vivo Communication Technology, Guangdong, China, and is engaged in the business of manufacturing, assembling, wholesale trading as well as distribution of mobile handsets and accessories.

DHFL-Yes Bank case: ED attaches ₹415 cr worth assets of Maha builders

ASSETS WORTH ₹415 crore of arrested Maharashtra builders Avinash Bhosale and Sanjay Chhabria have been attached in the Yes Bank-DHFL bank loan fraud linked money laundering case, the ED said on Wednesday.

Both the builders were taken into custody by the federal agency in the case in June and they are in judicial custody at present. The ED had issued a provisional attachment order under the PMLA on Tuesday to attach the assets of Bhosale, worth ₹164 crore, while Chhabria's assets are worth ₹251 crore. The attached assets of Chhabria are in the form of a land parcel located in Santacruz, Mumbai worth ₹116.5 crore, 25% equity shares of Chhabria's company held in a land parcel located in Bengaluru worth ₹115 crore, a flat located at Santacruz, Mumbai worth ₹3 crore, profit receivable from a hotel belonging to Chhabria located at the Delhi airport worth ₹13.67 crore. 'Game of chance makes online platforms illegal'

BETTING AND GAMBLING are unlawful in most parts of the country and online gaming platforms are treated as illegal when game of chance is involved in those platforms, Parliament was informed on Wednesday. Minister of State for Electronics and IT Rajeev Chandrasekhar, in a written reply in the Lok Sabha, said all forms of gambling and betting come under the purview of state governments and they have

enacted laws to deal with the same within their jurisdiction under List-II of the Seventh Schedule of the Indian Constitution.

"Betting and gambling is illegal in most parts of the country. Online gaming platforms are intermediaries and they have to follow the due diligence as prescribed in the Information Technology (IT) Act, 2000 and the Rules thereunder," he said. —PTI

Meity blocks 348 apps

THE GOVERNMENT HAS blocked 348 mobile applications that were identified by the home ministry for transmitting users' information in an unauthorised manner to servers located outside the country, Parliament was told on Wednesday. Minister of state for electronics and IT Rajeev Chandrasekhar said in the Lok Sabha the apps are developed by various countries. —PTI, including China.

Viral cattle disease hits milk output in Guj

JYOTSNA BHATNAGAR
Ahmedabad, August 3

THE OUTBREAK OF lumpy skin disease (LSD), a devastating viral infection, among cattle and water buffaloes in Gujarat and several other states has set the alarm bells ringing over its likely impact on milk production. Containment measures including large scale vaccination of cattle are being launched on a war footing with over a million animals vaccinated for immunity in Gujarat alone.

The disease has assumed epidemic proportions in the Saurashtra and Kutch regions of Gujarat in less than a month, infecting over 50,000 cattle heads and has spread across 20 of the 33 districts of the state.

Rajiv Gandhi, MD and CEO of the Ahmedabad-

National Herald case: ED seals Young Indian office

EXPRESS NEWS SERVICE
New Delhi, August 3

ADAY AFTER the Enforcement Directorate (ED) initiated a search operation at Herald House in Delhi in connection with a money laundering probe, the agency on Wednesday sealed an office in the building of Young Indian — a firm linked to the Gandhi family, which had acquired Associated Journals Limited, the publisher of National Herald newspaper.

Sources in the ED said the office was sealed temporarily because the search could not take place on Tuesday in the absence of a representative of the firm. "The principal officer Mallikarjun Kharge (Congress leader) came yesterday but left the premises without getting the searches conducted. Summons have been sent to the principal officer (Kharge) to get the search concluded. As and when the authorised

person presents himself for concluding the search, the seal will be lifted," an ED officer told *The Indian Express*.

The Delhi Police, meanwhile, increased deployment of personnel outside the Congress headquarters at 24, Akbar Road. The Congress, however, claimed that police had surrounded the residence of Congress president Sonia Gandhi at 10, Janpath, and that of former Congress president Rahul Gandhi at 12, Tughlaq Lane — both in central Delhi.

The Congress hit out at the Government and linked the sealing of Young Indian's office and the increased deployment of police outside the AICC headquarters to protests planned by the party on Friday on price rise, unemployment and hike in GST rates on essential commodities. "The Congress is under siege. Delhi Police have surrounded our headquarters and homes of Congress pres-

ident and ex-president. This is the worst form of vendetta politics. We will not submit. We will not be silenced. We will continue to raise our voice against injustices and failures of Modi Sarkar," AICC general secretary in charge of communication, Jairam Ramesh, said.

Addressing a press conference, along with Ramesh and Abhishek Singhvi at the AICC headquarters, Congress general secretary Ajay Maken said the party has received a letter from the Delhi Police denying permission for a demonstration and march to the Prime Minister's residence and Rashtrapathi Bhavan on Friday. "The AICC had issued a circular last week announcing our plan to hold a nationwide demonstration on August 5 on the issue of price rise, unemployment and hike in GST rates on food items.
